# R&D Tax Incentive

The Research and Development (R&D) Tax Incentive offsets some of the costs of doing eligible R&D activities. It provides a targeted tax offset to encourage more companies to engage in R&D.

- For all industries, all company sizes
- Firms need to have incurred eligible R&D expenditure or notional deductions of at least \$20,000 (unless using a Research Service Provider or a Cooperative Research Centre)
- 43.5% refundable tax offset for eligible entities with an aggregated turnover <\$20m and 38.5% non-refundable tax offset for all other entities

# Thank you
